10th INTERNATIONAL SYMPOSIUM ON

FUNCTIONAL GASTROINTESTINAL DISORDERS

APRIL 12–14, 2013
The Pfister Hotel
Milwaukee, Wisconsin

JOINTLY SPONSORED BY

University of Wisconsin School of Medicine and Public Health, Office of Continuing Professional Development in Medicine and Public Health
Madison, WI

International Foundation for Functional Gastrointestinal Disorders
Milwaukee, WI
STATEMENT OF NEED

Functional gastrointestinal disorders are among the most common conditions seen by primary care and specialty practices. Research is rapidly changing the understanding of the multiple underlying mechanisms in these disorders. Patient management and treatment remains challenging, and there is a lack of effective pharmacologic treatments available.

OBJECTIVES

The sessions will provide participants with opportunities to:

- Apply advances in the pathophysiology of functional gastrointestinal (GI) and motility disorders
- Apply newer technologies involved with diagnostic assessment of functional GI and motility disorders
- Develop improved clinical skills in the diagnosis and care of patients with functional GI and motility disorders
- Develop strategies and skills relating to interview technique, communication skills, and patient-centered care in order to improve patient satisfaction, adherence, and clinical outcome
- Network and share information experiences with other conference participants
- Recognize the influence of genetics, early life, and socio-cultural factors on the clinical expression of functional GI and motility disorders
- Identify the role of neurotransmitters and receptors in the development of clinical symptoms

TARGET AUDIENCE

The 10th International Symposium on Functional Gastrointestinal Disorders has been developed to enhance the knowledge and skills of physicians, psychologists, fellows, physician assistants, nurses, and allied health professionals in their care of patients with functional gastrointestinal disorders.

ELEMENTS OF COMPETENCE

This CME activity has been designed to change learner competence and performance and focuses on the American Board of Medical Specialties areas of medical knowledge, patient care and procedural skills, and interpersonal and communications skills.

FOR FURTHER INFORMATION

For registration information please contact:
Terese Bailey of the Office of Continuing Professional Development in Medicine and Public Health, 2701 International Lane, #208, Madison, Wisconsin 53704; telephone: 608/240-2141; e-mail: tmbailey@ocpd.wisc.edu.

For other inquiries please contact:
Elisabeth Vink of the International Foundation for Functional Gastrointestinal Disorders (IFFGD), PO Box 170864, Milwaukee, Wisconsin 53217; telephone: 414/964-1799; e-mail: symposium@iffgd.org.

10th INTERNATIONAL SYMPOSIUM ON FUNCTIONAL GASTROINTESTINAL DISORDERS

April 12–14, 2013
The Pfister Hotel
Milwaukee, Wisconsin
PLANNING COMMITTEE

Douglas A. Drossman, MD (Chair),
Adjunct Professor of Medicine and Psychiatry, UNC Center for Gastroenterology and Motility Disorders, University of North Carolina at Chapel Hill, Chapel Hill, NC

Lin Chang, MD, Center for Neurovisceral Sciences and Women's Health Center for Neurobiology of Stress, David Geffen School of Medicine at UCLA, Los Angeles, CA

William D. Chey, MD, AGAF, FACG, Professor of Medicine, Section of Gastroenterology, University of North Carolina at Chapel Hill, Chapel Hill, NC

John Bryant Wyman, MD, Professor of Medicine, Section of Gastroenterology and Hepatology, University of Wisconsin School of Medicine and Public Health, Madison, WI

William E. Whitehead, PhD, Professor of Medicine and Adjunct Professor of OB/GYN, Center for Functional GI & Motility Disorders, University of North Carolina at Chapel Hill, Chapel Hill, NC

John Bryant Wyman, MD, Professor of Medicine, Section of Gastroenterology and Hepatology, University of Wisconsin School of Medicine and Public Health, Madison, WI

FACULTY

Fernando Azpiroz, MD, PhD, Department of Digestive Diseases, University General Vall d’Hebron, Barcelona, Spain

Giovanni Barbbara, MD, Department of Clinical Medicine, University of Bologna; St. Orsola-Malpighi Hospital, Bologna, Italy

Elizabeth Beckett, PhD, Lecturer, Discipline of Physiology, School of Medical Sciences, The University of Adelaide, Adelaide, Australia

Adil E. Bharucha, MD, Professor of Medicine, Division of Gastroenterology and Hepatology, Mayo Clinic College of Medicine, Rochester, MN

L. Ashley Blackshaw, PhD, Neurogastroenterology Group, Blizzard Institute, Queen Mary University of London, London, England, United Kingdom

Lin Chang, MD, Center for Neurovisceral Sciences and Women’s Health Center for Neurobiology of Stress, David Geffen School of Medicine at UCLA, Los Angeles, CA

Douglas A. Drossman, MD, Adjunct Professor of Medicine and Psychiatry, UNC Center for Functional GI and Motility Disorders, University of North Carolina at Chapel Hill, Chapel Hill, NC

Giannrico Farrugia, MD, Director, Center for Individualized Medicine, Division of Gastroenterology, Hepatology, Internal Medicine, Department of Physiology and Biomedical Engineering, Mayo Clinic, Rochester, MN

Ronnier Fass, MD, Professor of Medicine, University of Arizona; Chief of Gastroenterology and Head, Neuroenteric Clinical Research Group, Tucson, AZ

John E. Kellow, MD, Head, Discipline of Medicine, Sydney Medical School-Northern, University of Sydney; Director, Gastrointestinal Investigation Unit, Royal North Shore Hospital, Sydney, Australia

Gary Mave, PhD, Professor, Department of Anatomy and Neurobiology, University of Vermont, Burlington, VT

Jan Tack, MD, PhD, Professor and Head of Clinic, Division of Gastroenterology, Department of Internal Medicine, University Hospital Gasthuisberg, Lueven, Belgium

William D. Chey, MD, AGAF, FACG, Professor of Medicine; Director, GI Physiology Laboratory; Director, Michigan Bowel Control Program, A. Alfred Taubman Health Care Center, University of Michigan Medical Center, Ann Arbor, MI

Giuseppe Chiarioni, MD, Senior Staff, Division of Gastroenterology, University of Verona, Verona, Italy; Associate Professor of Medicine, Division of Gastroenterology and Hepatology, Center for Functional & GI Motility Disorders, University of North Carolina at Chapel Hill, Chapel Hill, NC

Sheila E. Crowe, MD, FRCPC, FACP, FACP, FAG, Professor of Medicine; Director of Research, Division of Gastroenterology, Department of Medicine, University of California, San Diego, La Jolla, CA

Willem M. de Vos, PhD, Professor of Microbiology, Academy Professor of the Finnish Academy of Sciences, Laboratory of Microbiology, Wageningen University, Wageningen, The Netherlands

Inge Depoortere, PhD, Translational Research Center for Gastrointestinal Disorders, Catholic University of Leuven, Leuven, Belgium

Carlo Di Lorenzo, MD, Chief, Division of Pediatric Gastroenterology, Nationwide Children’s Hospital; Professor of Clinical Pediatrics, The Ohio State University, Columbus, OH

L. Diatchenko, MD, PhD, Associate Professor, Center for Neurosensory Disorders, School of Dentistry, University of North Carolina at Chapel Hill, Chapel Hill, NC

Alexander D. Dvureich, MD, Associate Dean for CME; Program Director, Medicine-Pediatrics Residency; Associate Professor of Clinical Pediatrics and Clinical Medicine, Indiana University School of Medicine, Indianapolis, IN

Douglas A. Drossman, MD, Adjunct Professor of Medicine and Psychiatry, UNC Center for Functional GI and Motility Disorders, University of North Carolina at Chapel Hill, Chapel Hill, NC

Giannrico Farrugia, MD, Director, Center for Individualized Medicine, Division of Gastroenterology, Hepatology, Internal Medicine, Department of Physiology and Biomedical Engineering, Mayo Clinic, Rochester, MN

Ronnie Fass, MD, Professor of Medicine, University of Arizona; Chief of Gastroenterology and Head, Neuroenteric Clinical Research Group, Tucson, AZ

Christophe Faure, MD, Professor of Pediatrics, Division of Gastroenterology and Nutrition, CHU Sainte-Justine, Montreal, QC, Canada

Dee E. Fenner, MD, Furlong Professor of Women’s Health; Director of Gynecology, Department of Obstetrics and Gynecology, University of Michigan Hospital and Health Systems, Ann Arbor, MI
FRIDAY, APRIL 12

AM
7:00 Registration and Breakfast
8:00 Greetings - Nancy J. Norton & Stephen James, MD

AM Plenary
Clinical Approach
8:20 Moderator: Douglas A. Drossman, MD
8:25 Global Epidemiology - Eamonn Quigley, MD
8:45 What’s New in Pathophysiology of FGIDs - John E. Kellow, MD
9:05 Integrated Approach to FGIDs - John E. Kellow, MD
9:50 Discussion
10:15 Refreshment Break

Hot Topics
10:45 Moderator: William D. Chey, MD, AGAF, FACG
10:50 What is the Link Between the Gut Microbiome and FGIDs - Willem M. de Vos, PhD
11:20 Food and GI Symptoms: Effects on Permeability, Immunology, Motility, and Sensation - Elena Verdú, MD, PhD
11:45 Manipulating the Gut Microbiome as a Treatment Strategy for FGIDs - Magnus Simrén, MD, PhD
12:10 Discussion
12:30 Lunch

PM Plenary
Neurogenesis, Neuroplasticity, and FGIDs
1:30 Co-Moderators: Gary Mawe, PhD & Keith A. Sharkey, PhD
1:35 Emerging Topics in Neurogastroenterology and Motility - Keith A. Sharkey, PhD
1:55 Neurogenesis in the Adult Enteric Nervous System - Michael D. Gershon, MD
2:15 Visceral Hypersensitivity - Stephen J. Vanner, MD, MSc, FRCPC
2:35 Pain, Emotion, and Interception - Irene Tracey, BA, MA (Oxon), PhD, FRCA
2:55 Discussion
3:15 Refreshment Break

PM Mini Symposia
3:30 - 5:00 (1.5 hours)

S1: Neural Regulation of Human Gut Function and Sensation
Chair: Gary Mawe, PhD
• Enteric Nervous System Stem Cells Derived From Human Gut Mucosa - Nikhil Thapar, BM, MRCP, MRCPCH, PhD
• Neuronal and Glial Signaling in the Human Gut - Michel Neunlist, PhD
• Functional Brain-Gut Imaging in Health and Functional Bowel Disorders - Emeran A. Mayer, MD

S2: Treatment of Pain Predominant Pediatric FGIDs
Chair: Carlo Di Lorenzo, MD
• Pharmacological Treatments - Miguel Saps, MD
• Behavioral Treatments - Rona L. Levy, MSW, PhD, MPH
• Early Life Events: What Are The Implications For Children With FGIDs? - Miranda van Tilburg, PhD
• Time for Gastric and Colonic Pacing? - Hayat Mousa, MD, AGAF

S3: Genetics
Chair: Yuri Saito, MD, MPH
• State-of-the-Art: How to Set Up a Genetic FGID Study - Beate Niesler, PhD
• Basic Foundations - Yuri Saito, MD, MPH
• Future in Research - Luda B. Diatchenko, MD, PhD

S4: Gastric Motility Disorders
Chair: Henry Parkman, MD
• Gastroparesis - P. Jay Parikh, MD
• Functional Dyspepsia - Jan Tack, MD, PhD
• Dumping Syndrome - William Hasler, MD
• Ruminative Syndrome: How to Distinguish it From Functional Vomiting - Ronnie Fass, MD

S5: Opioid and Narcotic Bowel
Chair: Douglas A. Drossman, MD
• Mechanisms of Opioid Bowel - Elizabeth Beckett, PhD
• Treatments of Opioid Bowel - Lin Chang, MD
• Narcotic Bowel - Douglas A. Drossman, MD

5:00 Adjourn
5:30 Reception, Awards Program, and Dinner

SATURDAY, APRIL 13

AM
7:00 Breakfast

AM Plenary
State-of-the-Art on What’s New in Pediatric FGIDs
8:00 Moderator: Paul Hyman, MD
8:05 What’s New in Pathophysiology of Pain Predominant FGIDs - Christophe Faure, MD
8:25 What’s New in Pathophysiology of Defecation Disorders - Samuel Nurko, MD, MPH
8:45 What’s New in Diagnosis of Upper GI Tract FGIDs - Manu Sood, MD
9:05 What’s New in Diagnosis of Defecation Disorders - Carlo Di Lorenzo, MD
9:25 Discussion
9:40 Refreshment Break
AM Mini Symposia
10:00 - 12:30 (2.5 hours)

S6: Novel Biomarkers
Chair: Satish S. C. Rao, MD, PhD, FRCP, FACG, AGAF
- Gastric Emptying and Colonic Transit - Satish S. C. Rao, MD, PhD, FRCP, FACG, AGAF
- Blood, Urine, and Stool - Michael P. Jones, PhD
- Psychosocial - Lukas Van Oudenhove, MD, PhD

S7: Intestinal Permeability and Visceral Hypersensitivity
Chair: Yvette Taché, PhD
- Differences/Interaction Between Nutrient Sensing and Pain Processing Afferents - L. Ashley Blackshaw, PhD
- Primary Sensory Neurons - Stephen J. Vanner, MD, MSc, FRCPC
- Central Processing of Pain - Irene Tracey, BA, MA (Oxon), PhD, FRCA
- Immune Cells, Permeability, and Visceral Hypersensitivity - René M. van den Wijngaard, PhD
- New Insights Into Intestinal Permeability - Clinical Implications in IBS - Giovanni Barbara, MD

S8: Bloating, Distension, and Gas
Chair: Max J. Schmulson W., MD
- Mechanisms - Lesley Houghton, PhD, CBiol, FSB, FACG, AGAF
- Bacterial Flora - Mark Pimentel, MD, FRCP
- Bloating Treatments - Max J. Schmulson W., MD
- Impact of the Symptoms and Clinical Value of Treatments - Eamonn Quigley, MD
- Psychological Aspects - Laurie Keefer, PhD

S9: Challenging Cases
Chair: Arnold Wald, MD
- Dyspepsia and SMA - Brian E. Lacy, MD, PhD
- Polysymptomatic FGIDs - Albena Halpert, MD
- Refractory Heartburn - Ronnie Fass, MD
- Refractory Lower Bowel - Arnold Wald, MD

S10: The Rome Working Group, Food & FGIDs
Chair: Jan Tack, MD, PhD
- Nutrient Sensing Mechanisms - Helen Raybould, PhD
- Food and GI Function: How Does Food Change GI Function in Man? - Fernando Azpiroz, MD, PhD
- Dietary Factors and Upper GI Symptoms: What is Known, What is Proven? - Jan Tack, MD, PhD
- Dietary Factors and Lower GI Symptoms - William D. Chey, MD, AGAF, FACG
- Gluten Sensitivity and its Role in Functional GI Symptoms - Sheila E. Crowe, MD, FRCP, FAC, FACP, AGAF

S11: Sorting Out Treatments for Constipation
Chair: Magnus Simrén, MD, PhD
- IBS-C v. Chronic Constipation v. Dyssynergia: Is There Really a Difference? - William E. Whitehead, PhD
- Biofeedback - Giuseppe Chiarioni, MD
- Emerging Therapies - Magnus Simrén, MD, PhD
- Surgery - Ann C. Lowry, MD
- Constipation in an Aged Population - Charlene M. Prather, MD, MPH

12:30 Lunch

PM Workshops
2:00 - 5:00 WORKSHOP (3 hours)

A1: Interview Techniques and Communication Skills
Coordinator: Douglas A. Drossman, MD
Albena Halpert, MD

2:00 - 3:30 WORKSHOPS (1.5 Hours)

B1: Clinical Pearls for the Clinician
Coordinator: Lin Chang, MD
- Psychological Pearls - Jeffrey M. Lackner, PsyD
- Diagnostic Pearls - William D. Chey, MD, AGAF, FACG
- Physiology Pearls - Henry Parkman, MD
- Treatment Pearls - Lin Chang, MD

B2: Anorectal Dysfunction
Coordinator: Adil E. Bharucha, MD
- Pelvic Floor Dyssynergia - Richard J. Saad, MD, MS
- Levator Ani Pain and Proctalgia Fugax - Adil E. Bharucha, MD
- Hemorrhoids and Fissures - Tracy L. Hull, MD

B3: Brain/Gut Modulation of GI Symptoms
Coordinator: Kirsten Tillisch, MD
- Objective Measure in Volume Changes - J. S. Labus, PhD
- Clinical Implications of Brain Imaging - Lukas Van Oudenhove, MD, PhD
- Drug Studies: Brain Activation Patterns With Relation to Drugs - Kirsten Tillisch, MD

B4: Neuromuscular Function and Dysfunction
Coordinator: Kenton M. Sanders, PhD
- Intestinal Cells of Cajal in Health and Disease - Gianrico Farrugia, MD
- Epigenetic Regulation of Smooth Muscle Growth and Function in the Gut - Tamas Ordog, MD
- Fibroblast-like Cells and Purinergic Neuromuscular Signaling - Kenton M. Sanders, PhD

B5: International Drug Development
Coordinator: Robin Spiller, MD, FRCP
- Japan - Shin Fukudo, MD, PhD
- Europe - Robin Spiller, MD, FRCP
- Latin America - Carlos Francisconi, MD, PhD
- United States - Anthony J. Lembo, MD

3:30 Refreshment Break
4:00 - 5:30 WORKSHOPS (1.5 Hours)

C1: FGIDs in the Technological Era  
Coordinator: Ami Sperber, MD, MSPH  
- Social Media and Medicine - Alexander M. Djuricich, MD  
- Tools for Global Research: Linguistic Validation and ePRO - Katie Zarzar  
- Assessing and Diagnosing IBS as a Global Phenomenon - How Can the Technological Era Help? - Ami Sperber, MD, MSPH

C2: Esophageal Disorders  
Coordinator: Ronnie Fass, MD  
- Globus - Peter J. Kahrilas, MD  
- Esophageal Dysmotility - Reza Shaker, MD  
- Refractory GERD - Ronnie Fass, MD  
- Eosinophilic Esophagitis - Ikuo Hirano, MD

C3: Serotonin - New Insights in Signaling and Therapeutic Implications  
Co-Coordinators: Keith A. Sharkey, PhD and Jackie D. Wood, MSc, PhD, AGAF  
- Serotonin Signaling in the Gut - Michael D. Gershon, MD  
- New Insights into the Prokinetic and Antinociceptive Actions of 5-HT4 Receptor Activation - Gary Mawe, PhD  
- Translational Studies of the Role of 5-HT in Visceral Pain and GI Motility - Jan Tack, MD, PhD

C4: Update on the Diagnosis and Treatment of Less Common FGIDs  
Coordinator: John E. Kellow, MD  
- Noncardiac Chest Pain - John E. Pandolfino, MD  
- Chronic Idiopathic Nausea and Functional Vomiting - Kevin W. Olden, MD  
- Functional Sphincter of Oddi Disorder - Nimish Vakil, MD, FACP, FACG, AGAF, FASGE

C5: Fecal Incontinence  
Coordinator: William E. Whitehead, PhD  
- Definitions, Epidemiology, and Quality of Life Impact - William E. Whitehead, PhD  
- NIDDK Public Awareness Campaign - Frank A. Hamilton, MD, MPH  
- Pathophysiology and Diagnostic Evaluation - Adil E. Bharucha, MD  
- Overlap of Fecal Incontinence with Urinary Incontinence and Other Pelvic Floor Disorders - Dee E. Fenner, MD  
- Conservative Management and Biofeedback - Steve Heymen, PhD  
- Surgical Treatments, Including: SNS, TOPAS Sling, and Bulking Agents - Ann C. Lowry, MD

5:30 Adjourn - Dinner on your own

SUNDAY, APRIL 14

7:00 Breakfast  
AM Mini Symposia  
8:00 - 10:30 (2.5 hours)

S12: Clinical Trial Design and Outcome Measurement  
Chair: William D. Chey, MD, AGAF, FACG  
- Clinical Trial Design Issues for FGIDs - Ruyi He, MD  
- GERD - Brennan Spiegel, MD, MSHS, FACG, AGAF  
- Functional Dyspepsia - Jan Tack, MD, PhD  
- Gastroparesis - Henry Parkman, MD  
- IBS - Lin Chang, MD  
- The Regulatory Issues Around FGIDs in Europe - Elmer Shabel, MD  
- The Regulatory Issues Around FGIDs in Japan - Mutsuhiro Ikuma, MD, PhD

S13: Rome  
Chair: Douglas A. Drossman, MD  
- What’s New in Rome IV - Douglas A. Drossman, MD  
- Multi-Dimensional - Douglas A. Drossman, MD  
- Primary Care - A. Pali Hungin, MD  
- Question Validation - William E. Whitehead, PhD  
- Multi-National - Ami Sperber, MD, MSPH

10:30 Refreshment Break  
AM Plenary  
Clinical Application  
10:45 Moderator: Lin Chang, MD  
10:50 Maximizing the Physician/Patient Relationship - Albena Halpert, MD  
11:10 Central Pharmacological Treatments for FGIDs - Douglas A. Drossman, MD  
11:30 New and Emerging Treatments of the Gut - William D. Chey, MD, AGAF, FACG  
11:50 Behavioral Treatments for FGIDs - Laurie Keefer, PhD  
12:10 Discussion  

12:40 Adjourn - Box lunch to go

S14: Pediatric Research  
Chair: Carlo Di Lorenzo, MD  
- Gut Microbe Signatures in Children with IBS - Robert J. Shulman, MD  
- Role of Serotonin Signaling in Children with Functional Abdominal Pain - Christophe Faure, MD  
- Working Together For a Better Understanding of Childhood FGIDs: Lessons from the Digestive Health Alliance Children’s Research Network - Carlo Di Lorenzo, MD  
- Time to Treat the Parents to Make the Children Better - Rona L. Levy, MSW, PhD, MPH

S15: Nutrients, Emotion, and Food Intake  
Chair: Emeran A. Mayer, MD  
- Fat Signaling and Emotion - Lukas Van Oudenhove, MD, PhD  
- Bitter Taste Receptors, Food Intake, and GI Motor Function - Inge Depoortere, PhD  
- Nutrient Signaling and Vagal Control of Gut Function - Helen Raybould, PhD  
- Nutrient Signaling and Pain Sensation - L. Ashley Blackshaw, PhD

12:40 Adjourn - Box lunch to go
REGISTRATION FORM

10TH INTERNATIONAL SYMPOSIUM ON FUNCTIONAL GASTROINTESTINAL DISORDERS
April 12 - 14, 2013
Please Print in BLOCK Letters

STEP 1. Participant Information:

Name
First
MI
Last

Professional Degree (for credit and name badge)  □ MD; □ DO; □ PhD; □ RN; □ PA; □ Other, please specify

Company Name

Dept. Name or Mail Code

Work Address

City, State, Zip, Country

Day Phone

FAX
E-mail

STEP 2. Confirmation:

□ Work Address (as provided in Step 1) or □ Home Address

Home Address

City, State, Zip, Country
STEP 3. Registration Fees:

- $600 MD/DO/PhD Fee
- $400 Fellow/RN/Resident/PA/Other(s) Fee

TOTAL FEE REMITTED: _____________

- PO or check enclosed (payable to University of Wisconsin)
- Please bill my company

STEP 4. Workshop & Mini Symposium Registration:

WORKSHOP & MINI SYMPOSIA REGISTRATION:

Please check the sessions you would like to attend. Requests will be honored on a first-come, first-served basis.

FRIDAY, APRIL 12 – PM MINI SYMPOSIA

Please choose one 1.5 hour session.

Mini Symposia: 3:30 pm – 5:00 pm (1.5 hours)
- S1. Neural Regulation of Human Gut Function and Sensation
- S2. Treatment of Pain Predominant Pediatric FGIDs
- S3. Genetics
- S4. Gastric Motility Disorders
- S5. Opioid and Narcotic Bowel

SATURDAY, APRIL 13 – AM MINI SYMPOSIA

Please choose one 2.5 hour session.

Mini Symposia: 10:00 am - 12:30 pm (2.5 hours)
- S6. Novel Biomarkers
- S7. Intestinal Permeability and Visceral Hypersensitivity
- S8. Bloating, Distension, and Gas
- S9. Challenging Cases
- S10. The Rome Working Group, Food & FGIDs
- S11. Sorting Out Treatments for Constipation

SATURDAY, APRIL 13 – PM WORKSHOPS

Please choose one 3 hour workshop – OR – two 1.5 hour workshops.

3 hour workshop: 2:00 pm - 5:00 pm
- A1. Interview Techniques and Communication Skills

1.5 hour workshops: 2:00 pm - 3:30 pm
- B1. Clinical Pearls for the Clinician
- B2. Anorectal Dysfunction
- B3. Brain/Gut Modulation of GI Symptoms
- B4. Neuromuscular Function and Dysfunction
- B5. International Drug Development

1.5 hour workshops: 4:00 pm - 5:30 pm
- C1. FGIDs in the Technological Era
- C2. Esophageal Disorders
- C3. Serotonin - New Insights in Signaling and Therapeutic Implications
- C4. Update on the Diagnosis and Treatment of Less Common FGIDs
- C5. Fecal Incontinence

SATURDAY, APRIL 13 – PM WORKSHOPS

Please choose one 3 hour workshop – OR – two 1.5 hour workshops.

3 hour workshop: 2:00 pm - 5:00 pm
- A1. Interview Techniques and Communication Skills

1.5 hour workshops: 2:00 pm - 3:30 pm
- B1. Clinical Pearls for the Clinician
- B2. Anorectal Dysfunction
- B3. Brain/Gut Modulation of GI Symptoms
- B4. Neuromuscular Function and Dysfunction
- B5. International Drug Development

1.5 hour workshops: 4:00 pm - 5:30 pm
- C1. FGIDs in the Technological Era
- C2. Esophageal Disorders
- C3. Serotonin - New Insights in Signaling and Therapeutic Implications
- C4. Update on the Diagnosis and Treatment of Less Common FGIDs
- C5. Fecal Incontinence

SUNDAY, APRIL 14 – AM MINI SYMPOSIA

Please choose one 2.5 hour session.

Mini Symposia: 8:00 am - 10:30 am (2.5 hours)
- S12. Clinical Trial Design and Outcome Measurement
- S13. Rome
- S14. Pediatric Research
- S15. Nutrients, Emotion, and Food Intake

STEP 5. Please return your payment with this form to:

CME Specialist, The Pyle Center, Department 101, 702 Langdon Street, Madison, WI 53706 or Fax 1-800/741-7416 (in Madison Fax 265-3163).

The University of Wisconsin provides equal opportunities in employment and programming, including Title IX requirement. The University of Wisconsin School of Medicine and Public Health fully complies with the legal requirements of the ADA and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please notify Terese Bailey in order to receive service. Please call: 608/240-2141.
GENERAL INFORMATION

Dates: April 12 - 14, 2013
Place: The Pfister Hotel
424 E. Wisconsin Avenue
Milwaukee, WI 53202
Phone: 414/273-8222
Toll-free (USA): 800/558-8222
Fax: 414/273-5025
Website: www.thepfisterhotel.com

SYMPOSIUM FEE
The symposium fee of $600 for physicians and psychologists; $400 for fellows, nurses, residents, physicians’ assistants, and others, includes the cost of tuition, materials, breakfasts, refreshment breaks, lunches, one dinner, and a nonrefundable registration fee of $50. Should you cancel your registration up to 72 hours prior to the symposium; you will be refunded the entire symposium fee except the $50 nonrefundable portion. No refunds will be made after that time.

HOUSING
A block of rooms has been reserved at The Pfister Hotel, 424 E. Wisconsin Avenue, Milwaukee, WI 53202; telephone: 414/273-8222. The special symposium rates are:
- Single: $184/night plus tax
- Double: $204/night plus tax
The Pfister will release the block of rooms to the general public on March 20, 2013. Please call or write the Hotel directly for your reservation and mention “10th International Symposium on Functional Gastrointestinal Disorders” to the hotel staff when making your reservation. You can also make your reservation online at: http://booking.ihotelier.com/istay/istay.jsp?groupId=773088&hotelID=73000.

FOUR EASY WAYS TO REGISTER
On-line: www.ocpd.wisc.edu/course_catalog

Saturday, April 13
- 7:00 - 8:05 am; 9:25 - 10:00 am;
- 12:15 - 2:00 pm; 3:15 - 4:00 pm
For an Exhibitor Prospectus, please contact Elisabeth Vink at symposium@iffgd.org or 414/964-1799.

CONFIRMATIONS
All registrations are confirmed in writing. If you do not receive a confirmation, please call 608/262-1397.

CONFERENCE ATTIRE
To ensure your comfort in the conference rooms, please bring a sweater or jacket to accommodate temperature variations.

CREDIT
Accreditation Statement
This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the University of Wisconsin School of Medicine and Public Health and the International Foundation for Functional Gastrointestinal Disorders. The University of Wisconsin School of Medicine and Public Health is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement
The University of Wisconsin School of Medicine and Public Health designates this educational activity for a maximum of 18.75 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Continuing Education Units
The University of Wisconsin-Madison, as a member of the University Continuing Education Association (UCEA), authorizes this program for 1.875 continuing education units (CEUs) or 18.75 hours.

Policy on Faculty and Sponsor Disclosure
It is the policy of the University of Wisconsin School of Medicine and Public Health that the faculty, authors, planners, and other persons who may influence content of this CME activity disclose all relevant financial relationships with commercial interests in order to allow CME staff to identify and resolve any potential conflicts of interest. Faculty must also disclose any planned discussion of unlabeled/unapproved uses of drugs or devices during their presentation(s). Detailed disclosures will be made in the activity handout materials.
