Accreditation Statement

The University of Wisconsin School of Medicine and Public Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation Statement

The University of Wisconsin School of Medicine and Public Health designates this live activity for a maximum of 9 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Education Units

The University of Wisconsin-Madison, as a member of the University Continuing Education Association (UCEA), authorizes this program for 9 continuing education units (CEUs) or 9 hours.

Need Statement

This conference is being held in response to mental health professionals’ previous conference evaluations and the need for ongoing continuing medical education for clinicians in the area of psychiatry.

Target Audience

This activity has been designed to meet the needs of clinicians and other health care professionals who are looking to enhance their knowledge and skills for the care of their patients with mental health issues.

Elements of Competence

This CME activity has been designed to change learner competence and focuses on the American Board of Medical Specialties areas of medical knowledge, and patient care and procedural skills.

Policy on Faculty and Sponsor Disclosure

It is the policy of the University of Wisconsin School of Medicine and Public Health that the faculty, authors, planners, and other persons who may influence content of this CME activity disclose all relevant financial relationships with commercial interests in order to allow CME staff to identify and resolve any potential conflicts of interest. Faculty must also disclose any planned discussion of unlabeled/unapproved uses of drugs or devices during their presentation(s). Detailed disclosures will be made in the activity handout materials.

### LEARNING OBJECTIVES

At the conclusion of this activity, participants should be able to:

• Develop a strategy for managing treatment-resistant depression in children and adolescents.

• Describe what is currently known about the neurobiology of schizophrenia and other psychotic disorders.

• Compare and contrast options for the pharmacological treatment of insomnia.

• List evidence-based options for treating post-traumatic stress disorder.

• Describe the risks and benefits of various treatment options for ADHS in adults.

• Develop a strategy for the management of schizophrenia and schizoaffective disorder, including newer antipsychotics.

• Develop a strategy for the management of behavioral and psychological symptoms of dementia.

• Develop a strategy for managing behavioral issues in children and adolescents in primary care.

• Appreciate the importance of recognizing sleep disorders, including sleep apnea, in adults with mental illness.

• Compare and contrast options for the pharmacological treatment of insomnia.

• Develop a strategy for managing treatment-resistant depression in adults.

• Describe the efficacy and side effects of neuromodulatory techniques in treating depression.
